

About Hiwa

High quality valves & superior after-sale service
International business relationship with countries in 5 continents
Warranty of 18 month
Accurate performance to hydraulic system

In year 1984, Hui Hua was funded by name of Jin-jun Butterfly Valve Factory and had been changed to current name in year 2001 and have started enlarging production capacity by having 5 work-shops (including procedure of machining of 2 work-shops, powder epoxy coating, assembling of 2 work-shops & testing.) occupied 15000 square meter in Tian-jin, current address.

In the last year, 2008, HIWA broke through turn-over of 15 million dollars and is trying to do more in coming year 2009. Such turnover was built by more than 300 sets of production facility, including more than 200 sets machining machine, test machine, measuring equipment...etc operated by around 550 people who have the most expert experience manufacturing valves for years. We'd like to high-light that there are 6 superior engineers and 12 relevant major engineers who helps with CAD drawings and technical supports in R&D department of HIWA and other 4 experts in QC department. With powerful technical team, HIWA produces high quality valve with the most favorable offers under rules from TUV ISO9002 and CE.

Besides excellent team for production, HIWA also has overall sales management to deal with customers world-wide. 95% of turn-over was from exporting to USA, Argentina, Colombia, Peru, Chile, Sweden, Norway, Belgium, France, German, Romania, Italy, Spain, Turkey, Israel, Iran, Egypt, South Africa, Australia, Malaysia, Vietnam, Thailand, Singapore, HK, Taiwan and Korea. Thanks for efficient modern technical tool of internet, we provide instant service by email, MSN or Skype...etc. Smooth and quick communication is one of the main keys to help us obtain good reputation among customers.

With nice communication, customers know us well and are satisfied with 18 months warranty. By great confidence to our valve seat supplier, we provide warranty of 18 months or even longer for special material. Raw material for valve seat was purchased from Japan where takes QC as the central spirit of whole organization. High quality rubber brings 0-leakage- valve as well as good design makes low-torque-valve.

Accurate performance is the best reason why customers keep placing orders to HIWA who is proud of its team.

Select HIWA, Select Trust.
